

# Memories

Record successfully your information

## Information

### What is information?

Processed, organized and structured data.

- Any kind of message.

Defined by:

- Date \*
- Content
- Locations \*
- Its relations with other information.

\* [Can be delete]

Can we delete data and edit data?

Same information should be done  
without fiction

(Otherwise people won't want info)

Requirements

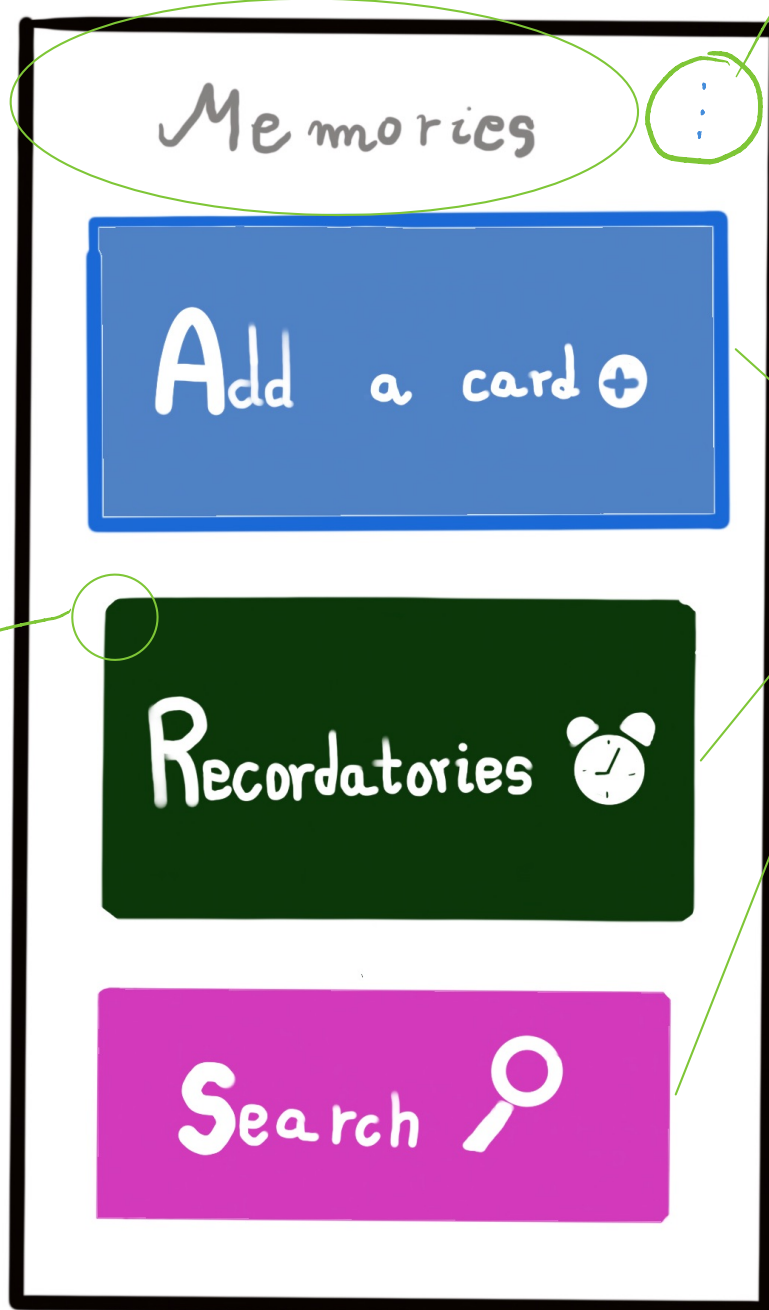

- Easy user input
- Alarm / notifications.  
(Did you forget to...?)

# Home

You can configure the init preview.

Title

configuration

Padding

(I have no idea about the padding it must have).

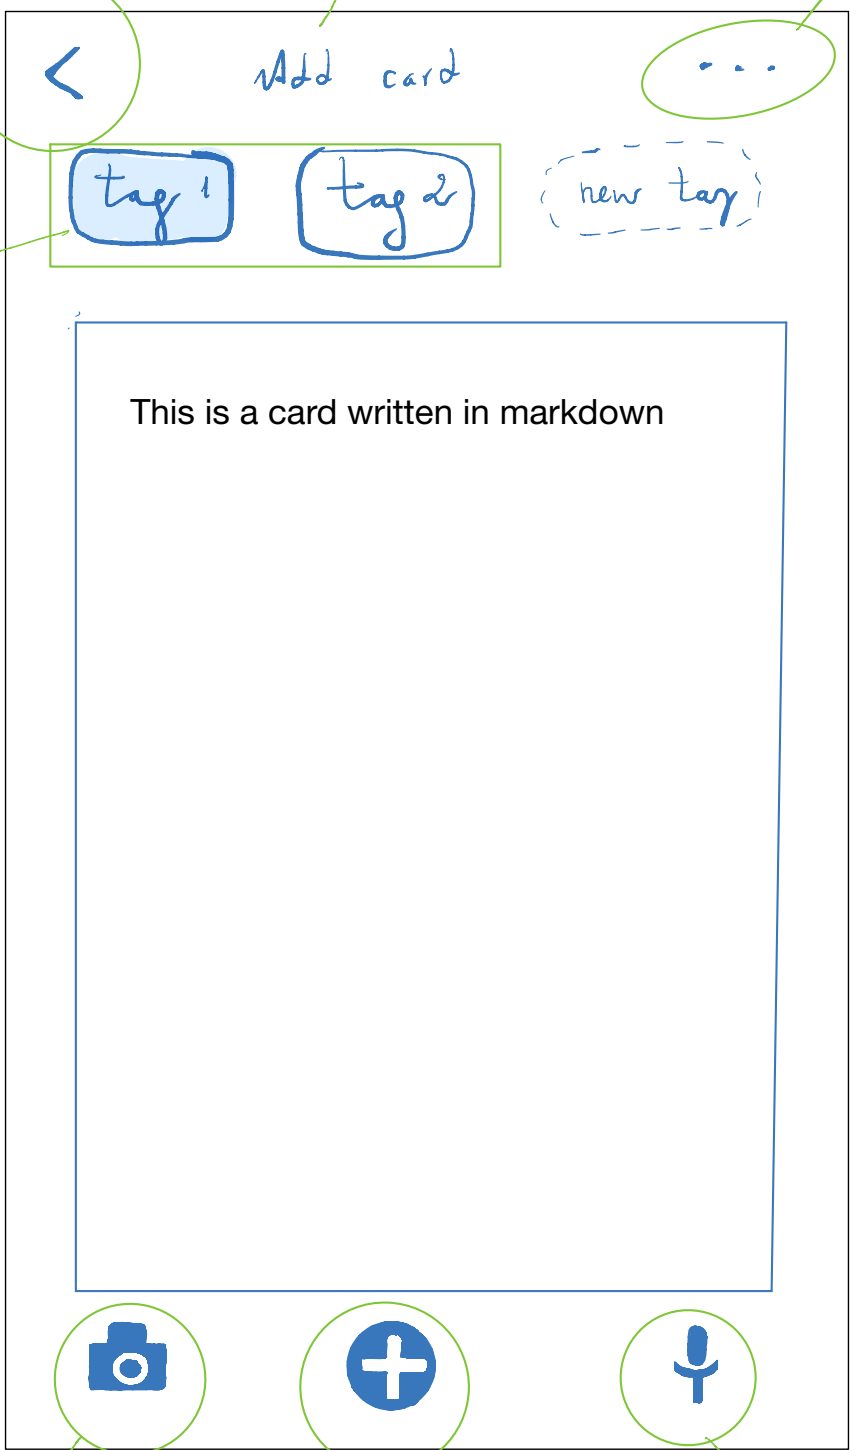

Buttons of options

→ Should be the same size  
- what we could find a colour theme

# Introducir mensaje

Return to home

Options menu

Olds tags

- More recents before
- Filled if selected
- Slide bar

Big textbox.

- Markdown style
- (Maybe we should modify the syntax in order to a simple)

Take a photo

Add this card

Record an audio

# Recordatories

- We need to improve the design

Return home

Add background colour

Slide bar

Edit button

Delete

Open a form

Recordatories

Title: One daily photo.  
Repeat: Every day. Time: Random  
Request: Please take a photo  
Tags: Random-photo

Title: Dairy  
Repeat: Every Time: 21:30  
Request: How have been your day?  
How do you feel?  
Tags: dairy

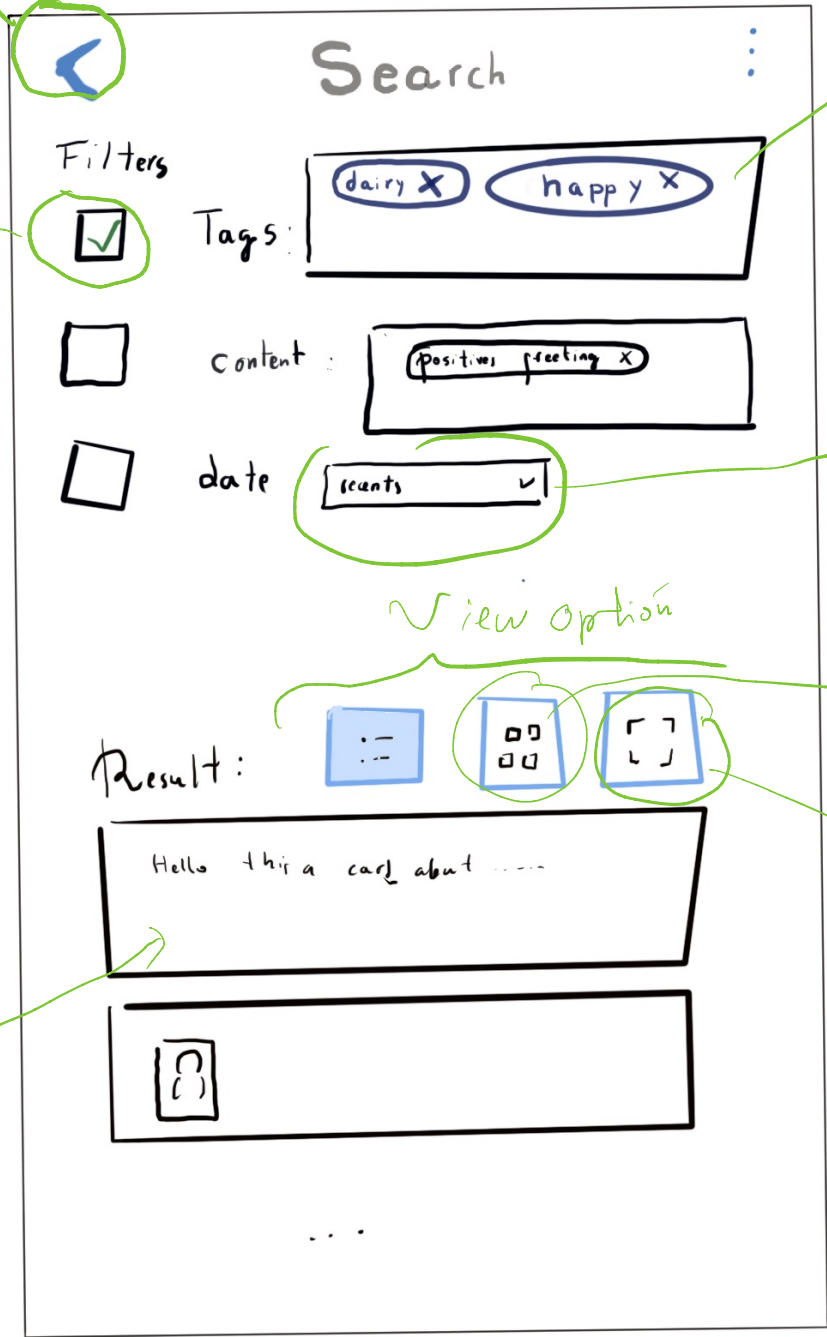

Add new recordatory

# Search

Home button

Apply filters

Search box  
(I've forgotten the name :c)

Drop down

View option

:= One line

grid

Big view without filter opt's

Click to see a bigger option

Search and click on a card.

Return to search (or may be the previous card)
